IRB Return Notes

February 14, 2020

Dear Dr. Kleinman,

Thank you for your submission. This protocol is being returned to you because based on the information provided in this application, the IRB has determined that this research does not involve human subjects as defined in 45 CFR 46 or 21 CFR 56. This 'Return Note' can serve as documentation of the IRB's determination. No further action is needed from you, and you may commence work on this study.

If there are future changes to this project which you believe may alter the IRB's determination, please contact me; my information is below.
